The ideal nomination focuses on a story, (i.e., a specific situation, concern or challenge in the community and how the nominee transformed this situation). We aren't looking for information about how amazing the nominee is as a human (we know they are!). The goal is to inspire action with their individual story.

Tell us about a need, challenge or situation that existed in the community, or an issue that wasn't being addressed that should have been? *

How did the Nominee improve the situation or address the need? We are especially interested in hearing about ways that the Nominee is finding a creative response to a problem, addresses a need that is often invisible, or maintains commitment to values when it might be easier to give them up. *
